Source Code Files:

```
using ByteScout.BarCode;

namespace AddBarcodeToMultipageTiff
{
    class Program
    {
        static void Main()
        {
            // Create new barcode and register it.
            Barcode barcode = new Barcode();
            barcode.RegistrationName = "demo";
            barcode.RegistrationKey = "demo";

            // Set symbology
            barcode.Symbology = SymbologyType.PDF417;
            // Set value
            barcode.Value = "Sample barcode";

            // Place barcode at bottom-right corner of the the first TIFF page
            barcode.DrawToImage("wikipedia.tif", 0, 550, 1100, "result.tif");

            // Open output file in default image viewer
            System.Diagnostics.Process.Start("result.tif");
        }
    }
}
```
