

How to set additional barcode caption in C# using ByteScout Barcode SDK

The tutorial below will demonstrate how to set additional barcode caption in C#

This sample source code below will demonstrate you how to set additional barcode caption in C#. ByteScout Barcode SDK is the robust SDK that generates high quality barcode images and pdf. Can generate all popular types of barcodes from QR Code, Code 39, Code 128, UPC, GS1, GS-128, PDF417, Datamatrix to more exotic barcode types. Fully customizable fonts, colors, print sizes. Includes special functions to ensure output quality, and tools for adding barcodes to new or existing pdf files and images. It can be used to set additional barcode caption using C#.

Fast application programming interfaces of ByteScout Barcode SDK for C# plus the instruction and the code below will help you quickly learn how to set additional barcode caption. In order to implement the functionality, you should copy and paste this code for C# below into your code editor with your app, compile and run your application. Enjoy writing a code with ready-to-use sample codes in C#.

Trial version of ByteScout Barcode SDK can be downloaded for free from our website. It also includes source code samples for C# and other programming languages.

```
using System;
using System.Collections.Generic;
using System.Drawing;
using System.Text;
using System.Diagnostics;

using Bytescout.BarCode;

namespace Sample
{
    class Program
    {
        static void Main(string[] args)
        {
            // Create new barcode
            Barcode barcode = new Barcode();

            // Set symbology
            barcode.Symbology = SymbologyType.Codabar;
            // Set value
            barcode.Value = "123456";

            // Set custom additional caption
            barcode.AdditionalCaption = "Custom caption";
            // Set additional caption font
            barcode.AdditionalCaptionFont = new Font("Comic Sans MS", 12);
            // Set additional caption position
            barcode.AdditionalCaptionPosition = CaptionPosition.Above;

            // Save barcode to image
            barcode.SaveImage("result.png");

            // Show image in default image viewer
            Process.Start("result.png");
        }
    }
}
```
