

# How to add checksum to caption in VB.NET with ByteScout Barcode SDK

## Tutorial on how to add checksum to caption in VB.NET

We made thousands of pre-made source code pieces for easy implementation in your own programming projects. ByteScout Barcode SDK is the robust SDK that generates high quality barcode images and pdf. Can generate all popular types of barcodes from QR Code, Code 39, Code 128, UPC, GS1, GS-128, PDF417, Datamatrix to more exotic barcode types. Fully customizable fonts, colors, print sizes. Includes special functions to ensure output quality, and tools for adding barcodes to new or existing pdf files and images. It can be used to add checksum to caption using VB.NET.

VB.NET code samples for VB.NET developers help to speed up coding of your application when using ByteScout Barcode SDK. In your VB.NET project or application you may simply copy & paste the code and then run your app! Enjoy writing a code with ready-to-use sample codes in VB.NET.

ByteScout free trial version is available for download from our website. It includes all these programming tutorials along with source code samples.

VB.NET - Module1.vb

```
Imports ByteScout.BarCode

Module Module1

    Sub Main()
        ' Create new barcode
        Dim barcode As New Barcode()

        ' Set symbology
        barcode.Symbology = SymbologyType.Codabar
        ' Set value
        barcode.Value = "123456"

        ' Add checksum to barcode
        barcode.AddChecksum = True
        ' Add checksum to caption
        barcode.AddChecksumToCaption = True

        ' Save barcode to image
        barcode.SaveImage("result.png")

        ' Show image in default image viewer
        Process.Start("result.png")
    End Sub
```

End Module
