Follow the instruction from the scratch to work and copy and paste code for VB.NET into your editor. This basic programming language sample code for VB.NET will do the whole work for you in implementing JAN 13 barcode in your app.

ByteScout Barcode SDK is available as free trial. You may get it from our website along with all other source code samples for VB.NET applications.

VB.NET - Module1.vb

```
Imports Bytescout.BarCode

Module Module1

    Sub Main()
        ' Create new barcode
        Dim barcode As New Barcode()

        ' Set symbology
        barcode.Symbology = SymbologyType.JAN13
        ' Set value
        barcode.Value = "1234567890"

        ' Save barcode to image
        barcode.SaveImage("result.png")

        ' Show image in default image viewer
        Process.Start("result.png")
    End Sub

End Module
```
