

## How to read merged cells with spreadsheet sdk in C# with ByteScout Barcode Suite

Learning is essential in computer world and the tutorial below will demonstrate how to read merged cells with spreadsheet sdk in C#

On this page you will learn from code samples for programming in C#. Writing of the code to read merged cells with spreadsheet sdk in C# can be executed by programmers of any level using ByteScout Barcode Suite. Want to read merged cells with spreadsheet sdk in your C# app? ByteScout Barcode Suite is designed for it. ByteScout Barcode Suite is the bundle that provides 3 SDK products to generate barcodes (Barcode SDK), read barcodes (Barcode Reader SDK) and read and write spreadsheets (Spreadsheet SDK).

Want to quickly learn? This fast application programming interfaces of ByteScout Barcode Suite for C# plus the guidelines and the code below will help you quickly learn how to read merged cells with spreadsheet sdk. IF you want to implement the functionality, just copy and paste this code for C# below into your code editor with your app, compile and run your application. Want to see how it works with your data then code testing will allow the function to be tested and work properly.

Trial version of ByteScout Barcode Suite is available for free. Source code samples are included to help you with your C# app.

Source Code Files:

Program.cs

```
using System;
using System.Collections.Generic;
using System.Text;
using Bytescout.Spreadsheet;

namespace ReadingMergedCells
{
    class Program
    {
        static void Main(string[] args)
        {
            // Create new Spreadsheet
            Spreadsheet document = new Spreadsheet();
            document.LoadFromFile("Input.xls");

            // Get worksheet by name
            Worksheet worksheet = document.Workbook.Worksheets["Sheet1"];

            // Read merged cell
            Cell cell = worksheet.Cell("C12").MergedWithCell;

            // Read cell value
            Console.WriteLine(cell.Value);

            // Close document
            document.Close();
        }
    }
}
```
