How to export to html with spreadsheet sdk in VB.NET using ByteScout Barcode Suite

This code in VB.NET shows how to export to html with spreadsheet sdk with this how to tutorial

The documentation is designed for a specific purpose to help you to apply the features on your side. ByteScout Barcode Suite is the bundle that privides 3 SDK products to generate barcodes (Barcode SDK), read barcodes (Barcode Reaer SDK) and read and write spreadsheets (Spreadsheet SDK). It can be applied to export to html with spreadsheet sdk using VB.NET.

Want to save time? You will save a lot of time on writing and testing code as you may just take the VB.NET code from ByteScout Barcode Suite for export to html with spreadsheet sdk below and use it in your application. IF you want to implement the functionality, just copy and paste this code for VB.NET below into your code editor with your app, compile and run your application. Applying VB.NET application mostly includes various stages of the software development so even if the functionality works please test it with your data and the production environment.

The trial version of ByteScout Barcode Suite can be downloaded for free from our website. It also includes source code samples for VB.NET and other programming languages.

Source Code Files:

Module1.vb

```vb
Imports Bytescout.Spreadsheet
Imports System.IO

Module Module1

    Sub Main()
        ' Open Spreadsheet
        Dim document As New Spreadsheet()
document.LoadFromFile("SimpleReport.xls")

        ' Get Worksheet
        Dim worksheet As Worksheet = document.Workbook.Worksheets(0)

        ' remove output file if already exists
        If File.Exists("Output.htm") Then
            File.Delete("Output.htm")
        End If

        ' Export to HTML
        worksheet.SaveAsHTML("Output.htm")

        ' Close Spreadsheet
        document.Close()

        ' open in default spreadsheets viewer/editor
        Process.Start("Output.htm")

    End Sub

End Module
```
