

PDF batch processing with PDF extractor SDK in C# and ByteScout Data Extraction Suite

Simple tutorial on how to do PDF batch processing with PDF extractor SDK in C#

Here you may get thousands pre-made source code samples for simple implementation in your own programming C# projects. ByteScout Data Extraction Suite helps with PDF batch processing with PDF extractor SDK in C#. ByteScout Data Extraction Suite is the bundle that includes three SDK tools for data extraction from PDF, scans, images and from spreadsheets: PDF Extractor SDK, Data Extraction SDK, Barcode Reader SDK.

Want to speed up the application development? Then this C#, code samples for C#, developers help to speed up the application development and writing a code when using ByteScout Data Extraction Suite. Just copy and paste this C# sample code to your C# application's code editor, add a reference to ByteScout Data Extraction Suite (if you haven't added yet) and you are ready to go! Updated and detailed documentation and tutorials are available along with installed ByteScout Data Extraction Suite if you'd like to learn more about the topic and the details of the API.

On our website you may get trial version of ByteScout Data Extraction Suite for free. Source code samples are included to help you with your C# application.

Source Code Files:

```
using System.IO;
using Bytescout.PDFExtractor;

namespace BatchProcessing
{
    class Program
    {
        static void Main()
        {
            // Create Bytescout.PDFExtractor.TextExtractor instance
            TextExtractor extractor = new TextExtractor();
            extractor.RegistrationName = "demo";
            extractor.RegistrationKey = "demo";

            // Get PDF files
            string[] pdfFiles = Directory.GetFiles(".", "*.pdf");

            foreach (string file in pdfFiles)
            {
                // Load document
                extractor.LoadDocumentFromFile(file);

                // Save extracted text to .txt file
                extractor.SaveTextToFile(Path.ChangeExtension(file, ".txt"));

                // Reset the extractor before load another file
                extractor.Reset();
            }

            // Cleanup
            extractor.Dispose();
        }
    }
}
```
