

How to set configuration profiles with PDF extractor SDK in C# with ByteScout Data Extraction Suite

Learning is essential in computer world and the tutorial below will demonstrate how to set configuration profiles with PDF extractor SDK in C#

The code displayed below will guide you to install an C# app to set configuration profiles with PDF extractor SDK. ByteScout Data Extraction Suite: the set that includes 3 SDK products for data extraction from PDF, scans, images and from spreadsheets: PDF Extractor SDK, Data Extraction SDK, Barcode Reader SDK. It can set configuration profiles with PDF extractor SDK in C#.

Want to save time? You will save a lot of time on writing and testing code as you may just take the C# code from ByteScout Data Extraction Suite for set configuration profiles with PDF extractor SDK below and use it in your application. IF you want to implement the functionality, just copy and paste this code for C# below into your code editor with your app, compile and run your application. Use of ByteScout Data Extraction Suite in C# is also described in the documentation included along with the product.

The trial version of ByteScout Data Extraction Suite can be downloaded for free from our website. It also includes source code samples for C# and other programming languages.

Source Code Files:

```
using System;
using Bytescout.PDFExtractor;

namespace Profiles
{
    /// <summary>
    /// This example demonstrates the use of profiles. Profiles are set of properties
    /// allowing to apply them to Extractor in any combination quickly. You can use
    /// predefined profiles or create you own in JSON format like in this example.
    /// </summary>
    class Program
    {
        static void Main(string[] args)
        {
            // Create Bytescout.PDFExtractor.TextExtractor instance
            TextExtractor extractor = new TextExtractor();
            extractor.RegistrationName = "demo";
            extractor.RegistrationKey = "demo";
            extractor.OCRLanguageDataFolder = @"c:\Program Files\Bytescout PDF Extractor";

            // Load sample PDF document
            extractor.LoadDocumentFromFile("sample_ocr.pdf");

            // Apply predefined profiles
            extractor.Profiles = "ocr, newspaper-layout";
            // Extract text to file
            extractor.SaveTextToFile("result1.txt");

            extractor.Reset();

            // Load another document
            extractor.LoadDocumentFromFile("sample_ocr.pdf");

            // Load and apply custom profiles
            extractor.LoadProfiles("profiles.json");
            extractor.Profiles = "keep-formatting, ocr-forced-200dpi";
            // Extract text to file
            extractor.SaveTextToFile("result2.txt");

            // Cleanup
            extractor.Dispose();

            // See result files in "bin\Debug" folder
        }
    }
}
```
