

## How to read csv file with spreadsheet sdk in VB.NET using ByteScout Data Extraction Suite

Learning is essential in computer world and the tutorial below will demonstrate how to read csv file with spreadsheet sdk in VB.NET

On this page you will learn from code samples for programming in VB.NET. Writing of the code to read csv file with spreadsheet sdk in VB.NET can be executed by programmers of any level using ByteScout Data Extraction Suite. ByteScout Data Extraction Suite is the bundle that includes three SDK tools for data extraction from PDF, scans, images and from spreadsheets: PDF Extractor SDK, Data Extraction SDK, Barcode Reader SDK. It can read csv file with spreadsheet sdk in VB.NET.

Want to quickly learn? This fast application programming interfaces of ByteScout Data Extraction Suite for VB.NET plus the guidelines and the code below will help you quickly learn how to read csv file with spreadsheet sdk. This VB.NET sample code is all you need for your app. Just copy and paste the code, add references (if needs to) and you are all set! Want to see how it works with your data then code testing will allow the function to be tested and work properly.

All these programming tutorials along with source code samples and ByteScout free trial version are available for download from our website.

### Source Code Files:

## Module1.vb

```
Imports Bytescout.Spreadsheet
Imports System.IO

Module Module1

    Sub Main()
        ' Create new Spreadsheet
        Dim document As New Spreadsheet()
        document.LoadFromFile("Hello_world.csv")

        ' Get first worksheet
        Dim worksheet As Worksheet = document.Workbook.Worksheets(0)

        ' Read cell value
        Console.WriteLine("Cell (0,0) value: {0}", worksheet.Cell(0, 0).Value)

        ' Write message
        Console.Write("Press any key to continue...")

        ' Wait user input
        Console.ReadKey()

    End Sub

End Module
```
