

## How to convert html to docx with pdf sdk in C# and ByteScout PDF Suite

Continuous learning is a crucial part of computer science and this tutorial shows how to convert html to docx with pdf sdk in C#

The coding instructions are formulated to help you to try-out the features without the requirement to write your own code. ByteScout PDF Suite can convert html to docx with pdf sdk. It can be applied from C#. ByteScout PDF Suite is the set that includes 6 SDK products to work with PDF from generating rich PDF reports to extracting data from PDF documents and converting them to HTML. This bundle includes PDF (Generator) SDK, PDF Renderer SDK, PDF Extractor SDK, PDF to HTML SDK, PDF Viewer SDK and PDF Generator SDK for Javascript.

Want to quickly learn? This fast application programming interfaces of ByteScout PDF Suite for C# plus the guidelines and the code below will help you quickly learn how to convert html to docx with pdf sdk. Just copy and paste the code into your C# application's code and follow the instructions. Complete and detailed tutorials and documentation are available along with installed ByteScout PDF Suite if you'd like to learn more about the topic and the details of the API.

Our website gives trial version of ByteScout PDF Suite for free. It also includes documentation and source code samples.

Source Code Files:

Program.cs

```
using System.Diagnostics;
using Bytescout.PDF.Converters;

namespace ConvertHtmlToDocx
{
    class Program
    {
        static void Main(string[] args)
        {
            using (HtmlToDocxConverter converter = new HtmlToDocxConverter())
            {
                converter.ConvertHtmlToDocx("sample.html", "result.docx");

                // Open result document in default associated application (for demo purposes)
                ProcessStartInfo processStartInfo = new ProcessStartInfo("result.docx");
                processStartInfo.UseShellExecute = true;
                Process.Start(processStartInfo);
            }
        }
    }
}
```
