## OCR with best dataset with PDF extractor SDK in C# and ByteScout PDF Suite

Simple tutorial on how to do OCR with best dataset with PDF extractor SDK in C#

This page helps you to learn from code samples for programming in C#. ByteScout PDF Suite was created to assist OCR with best dataset with PDF extractor SDK in C#. ByteScout PDF Suite is the bundle that provides six different SDK libraries to work with PDF from generating rich PDF reports to extracting data from PDF documents and converting them to HTML. This bundle includes PDF (Generator) SDK, PDF Renderer SDK, PDF Extractor SDK, PDF to HTML SDK, PDF Viewer SDK and PDF Generator SDK for Javascript.

Save time on writing and testing code by using the code below and use it in your application. If you want to implement this functionality, you should copy and paste code below into your application. Then compile and run your application. Updated and detailed documentation and tutorials are available along with installed ByteScout PDF Suite if you'd like to learn more about the topic and the details of the API.
