Source Code Files:

Program.cs

```csharp
using Bytescout.BarCode;

namespace AddBarcodeToImage
{
        class Program
        {
                static void Main()
                {
            // Create new barcode and register it.
            Barcode barcode = new Barcode();
                        barcode.RegistrationName = "demo";
                        barcode.RegistrationKey = "demo";

            // Set symbology
            barcode.Symbology = SymbologyType.PDF417;
            // Set value
            barcode.Value = "Sample barcode";

            // Place barcode at bottom-right corner of the image
                        barcode.DrawToImage("wikipedia.png", -1, 400, 900, "result.png"

            // Open output file in default image viewer
            System.Diagnostics.Process.Start("result.png");
                }
        }
}
```
