

How to decode deutsche post leitcode barcode with barcode reader sdk in C# and ByteScout Premium Suite

Continuous learning is a crucial part of computer science and this tutorial shows how to decode deutsche post leitcode barcode with barcode reader sdk in C#

The code displayed below will guide you to install an C# app to decode deutsche post leitcode barcode with barcode reader sdk. ByteScout Premium Suite is the bundle that includes twelve SDK products from ByteScout including tools and components for PDF, barcodes, spreadsheets, screen video recording. It can be applied to decode deutsche post leitcode barcode with barcode reader sdk using C#.

These C# code samples for C# guide developers to speed up coding of the application when using ByteScout Premium Suite. Just copy and paste the code into your C# application's code and follow the instructions. Check C# sample code samples to see if they respond to your needs and requirements for the project.

You can download free trial version of ByteScout Premium Suite from our website with this and other source code samples for C#.

Source Code Files:

```

using System;
using System.IO;
using Bytescout.BarCodeReader;

namespace ReadDeutschePostLeitcode
{
    class Program
    {
        const string ImageFile = "DeutschePostLeitcode.png";

        static void Main()
        {
            Console.WriteLine("Reading barcode(s) from image {0}", Path.GetFullPath(ImageFile));

            Reader reader = new Reader();
            reader.RegistrationName = "demo";
            reader.RegistrationKey = "demo";

            // Set barcode type to find
            reader.BarcodeTypesToFind.Interleaved2of5 = true; // "Deutsche Post Leitcode"

            /* -----
            NOTE: We can read barcodes from specific page to increase performance.
            For sample please refer to "Decoding barcodes from PDF by pages" program.
            ----- */

            // Read barcodes
            FoundBarcode[] barcodes = reader.ReadFrom(ImageFile);

            foreach (FoundBarcode barcode in barcodes)
            {
                Console.WriteLine("Found barcode with type '{0}' and value '{1}'", barcode.Type, barcode.Value);
            }

            // Cleanup
            reader.Dispose();

            Console.WriteLine("Press any key to exit..");
            Console.ReadKey();
        }
    }
}

```
