Source Code Files:

Program.cs

```csharp
using System.Diagnostics;
using Bytescout.BarCode;

namespace FitInto
{
        class Program
        {
                static void Main(string[] args)
                {
                        // Create new barcode
                        Barcode barcode = new Barcode();

                        // Set symbology
                        barcode.Symbology = SymbologyType.Code39;
                        // Set value
                        barcode.Value = "Sample";

                        // Specify barcode size by bounds to fit into.
                        // You can use any measure units.
                        barcode.FitInto(5, 3, UnitOfMeasure.Inch);

                        // Save barcode to image
                        barcode.SaveImage("result.png");

                        // Show image in default image viewer
                        Process.Start("result.png");
                }
        }
}
```
