VBScript and VB6 - CaptureShowDialog.vbs

```
' create video capturer activex object
Set capturer = CreateObject("BytescoutScreenCapturing.Capturer")

' set output video file name
capturer.OutputFileName = "CapturedOutput.avi"

' show capturing properties dialog
capturer.ShowCaptureFilterPropertiesDialog (0)

' destroy Capturer object so the video will be saved into the disk
Set capturer = Nothing
```
