

How to search text in VB.NET with ByteScout Spreadsheet SDK

This tutorial will show how to search text in VB.NET

Learn how to search text in VB.NET with this source code sample. ByteScout Spreadsheet SDK can search text. It can be used from VB.NET. ByteScout Spreadsheet SDK is the library (SDK) that is capable of writing, reading, modifying and calculating Excel and CSV spreadsheets. Most popular formulas can be calculated and recalculated with Excel installed. You may import or export data to and from CSV, XML, JSON as well as to and from databases, arrays.

Fast application programming interfaces of ByteScout Spreadsheet SDK for VB.NET plus the instruction and the code below will help you quickly learn how to search text. Follow the instructions from the scratch to work and copy the VB.NET code. Further enhancement of the code will make it more vigorous.

Free trial version of ByteScout Spreadsheet SDK is available for download from our website. Get it to try other source code samples for VB.NET.

Source Code Files:

Program.vb

```

Imports Bytescout.Spreadsheet
Imports Bytescout.Spreadsheet.BaseClasses

Class Program
    Friend Shared Sub Main(args As String())
        ' Open spreadsheet from file
        Dim document As New Spreadsheet()
        document.LoadFromFile("example.xls")

        ' Get first worksheet
        Dim worksheet As Worksheet = document.Workbook.Worksheets(0)

        ' Find cells containing "in" substring

        Dim cell As Cell = worksheet.Find("in", False, False, False) 'case insensitive,

        While cell IsNot Nothing
            ' Print found cell address and value to console
            Dim address As CellAddress = cell.GetAddress()
            Dim message As String = String.Format("{0}, {1}): {2}", address.Column, address.Row, cell.Value)

            Console.WriteLine(message)

            cell = worksheet.FindNext()
        End While

        document.Dispose()

        Console.WriteLine()
        Console.WriteLine("Press any key to continue.")
        Console.ReadKey(True)
    End Sub
End Class
