

## How to batch watermark set of images for batch watermarking in VB.NET with ByteScout Watermarking SDK

How to batch watermark set of images in VB.NET with easy ByteScout code samples to make batch watermarking. Step-by-step tutorial

The documentation is designed to help you to implement the features on your side. ByteScout Watermarking SDK was made to help with batch watermarking in VB.NET. ByteScout Watermarking SDK is the library for software developers that can be used to quickly add image watermarking features into your web or desktop applications. Use ready to use presets or create your own to be applied for input PNG, JPG, BMP images. Can customize fonts, text position and rotation if required.

You will save a lot of time on writing and testing code as you may just take the code below and use it in your application. Sample code in VB.NET is all you need. Copy-paste it to your the code editor, then add a reference to ByteScout Watermarking SDK and you are ready to try it! Code testing will allow the function to be tested and work properly with your data.

Trial version of ByteScout is available for free download from our website. This and other source code samples for VB.NET and other programming languages are available.

Source Code Files:

```
Imports ByteScout.Watermarking

Module Module1

    Sub Main()
        ' Create Watermarker instance
        Dim waterMarker As New Watermarker()

        ' Initialize library
        waterMarker.InitLibrary("demo", "demo")

        ' Add images to apply watermarks to
        waterMarker.AddInputFile("my_sample_image2.jpg", "my_sample_image2_output.jpg")
        waterMarker.AddInputFile("my_sample_image3.jpg", "my_sample_image3_output.jpg")

        ' Create new watermark
        Dim preset As New Presets.TextFitsPage()

        ' Set watermark text
        preset.Text = "ByteScout Watermarking"

        ' Add watermark to watermarker
        waterMarker.AddWatermark(preset)

        ' Apply watermarks
        waterMarker.Execute()

    End Sub

End Module
```
