

How to convert excel to HTML jquery async API for excel to HTML API in JavaScript using PDF.co Web API

How to convert excel to HTML jquery async API for excel to HTML API in JavaScript: Step By Step Tutorial

Writing of the code to convert excel to HTML jquery async API in JavaScript can be done by developers of any level using PDF.co Web API. PDF.co Web API helps with excel to HTML API in JavaScript. PDF.co Web API is the Web API with a set of tools for documents manipulation, data conversion, data extraction, splitting and merging of documents. Includes image recognition, built-in OCR, barcode generation and barcode decoders to decode bar codes from scans, pictures and pdf.

JavaScript code samples for JavaScript developers help to speed up the application's code writing when using PDF.co Web API. For implementation of this functionality, please copy and paste code below into your app using code editor. Then compile and run your app. Enjoy writing a code with ready-to-use sample JavaScript codes to add excel to HTML API functions using PDF.co Web API in JavaScript.

ByteScout free trial version is available for FREE download from our website. Programming tutorials along with source code samples are included.

JavaScript - converter.js

```
var apiKey, formData, toType, isInline;

$(document).ready(function () {
    $("#resultBlock").hide();
    $("#errorBlock").hide();
    $("#result").attr("href", '').html('');
});

$(document).on("click", "#submit", function () {
    $("#resultBlock").hide();
    $("#errorBlock").hide();
    $("#inlineOutput").text(''); // inline output div
    $("#status").text(''); // status div

    apiKey = $("#apiKey").val().trim(); //Get your API key at
    https://app.pdf.co/documentation/api

    formData = $("#form input[type=file]")[0].files[0]; // file to upload
    toType = $("#convertType").val(); // output type
    isInline = $("#outputType").val() == "inline"; // if we need output as inline
    content or link to output file

    $("#status").html('Requesting presigned url for upload... ');
```

```

$.ajax({
  url: 'https://api.pdf.co/v1/file/upload/get-presigned-url?
name=test.pdf&encrypt=true',
  type: 'GET',
  headers: { 'x-api-key': apiKey }, // passing our api key
  success: function (result) {

    if (result['error'] === false) {

      var presignedUrl = result['presignedUrl']; // reading provided
presigned url to put our content into
      $("#status").html('Uploading... ');

      $.ajax({
        url: presignedUrl, // no api key is required to upload file
        type: 'PUT',
        data: formData,
        processData: false,
        success: function (result) {
          $("#status").html('Processing... ');

          $.ajax({
            url: 'https://api.pdf.co/v1/xls/convert/to/' + toType +
'?url=' + presignedUrl + '&encrypt=true&inline=' + isInline + '&async=True',
            type: 'POST',
            headers: { 'x-api-key': apiKey },
            success: function (result) {
              if (result.error) {
                $("#status").text('Error uploading file.');
```

```
else if (jobResult.status == "success") {
    $("#status").text('Done converting.');
```

```
    $("#resultBlock").show();

    if (isInline && toType != "pdf") {
        $.ajax({
            url: resultFileUrl,
            dataType: 'text',
            success: function (respText) {
                $("#inlineOutput").text(respText);
            }
        });
    }
    else {
        $("#result").attr("href", resultFileUrl).html(resultFileUrl);
    }
}
});
}
```
