

How to convert excel to HTML jquery for excel to HTML API in JavaScript and PDF.co Web API

Tutorial: how to convert excel to HTML jquery for excel to HTML API in JavaScript

Every ByteScout tool contains example JavaScript source codes that you can find here or in the folder with installed ByteScout product. Excel to HTML API in JavaScript can be implemented with PDF.co Web API. PDF.co Web API is the Web API with a set of tools for documents manipulation, data conversion, data extraction, splitting and merging of documents. Includes image recognition, built-in OCR, barcode generation and barcode decoders to decode bar codes from scans, pictures and pdf.

This rich sample source code in JavaScript for PDF.co Web API includes the number of functions and options you should do calling the API to implement excel to HTML API. Follow the instruction and copy - paste code for JavaScript into your project's code editor. Code testing will allow the function to be tested and work properly with your data.

Our website provides free trial version of PDF.co Web API that includes source code samples to help with your JavaScript project.

JavaScript - converter.js

```
$(document).ready(function () {
    $("#resultBlock").hide();
    $("#errorBlock").hide();
    $("#result").attr("href", '').html('');
});

$(document).on("click", "#submit", function () {
    $("#resultBlock").hide();
    $("#errorBlock").hide();
    $("#inlineOutput").text(''); // inline output div
    $("#status").text(''); // status div

    var apiKey = ($("#apiKey").val()).trim(); //Get your API key at
    https://app.pdf.co/documentation/api

    var formData = ($("#form input[type=file]")[0].files[0]); // file to upload
    var toType = ($("#convertType").val()); // output type
    var isInline = ($("#outputType").val() == "inline"); // if we need output as inline
    content or link to output file

    $("#status").html('Requesting presigned url for upload... ');

    $.ajax({
        url: 'https://api.pdf.co/v1/file/upload/get-presigned-url?
```

```

name=test.pdf&encrypt=true',
  type: 'GET',
  headers: { 'x-api-key': apiKey }, // passing our api key
  success: function (result) {

    if (result['error'] === false) {
      var presignedUrl = result['presignedUrl']; // reading provided
presigned url to put our content into
      var accessUrl = result['url']; // reading output url that will
indicate uploaded file

      $("#status").html('Uploading... ');

      $.ajax({
        url: presignedUrl, // no api key is required to upload file
        type: 'PUT',
        data: formData,
        processData: false,
        success: function (result) {

          $("#status").html('Processing... ');

          $.ajax({
            url: 'https://api.pdf.co/v1/xls/convert/to/' + toType +
'?url=' + presignedUrl + '&encrypt=true&inline=' + isInline,
            type: 'POST',
            headers: { 'x-api-key': apiKey },
            success: function (result) {

              $("#status").text('done converting. ');

              // console.log(JSON.stringify(result));

              $("#resultBlock").show();

              if (isInline) {
                $("#inlineOutput").text(result['body']);
              }
              else {
                $("#result").attr("href",
result['url']).html(result['url']);
              }
            }
          });
        }
      });
    },
    error: function () {
      $("#status").text('error');
    }
  });
}
});
});
