

How to convert PDF to XLSX in jquery for PDF to excel API in JavaScript and PDF.co Web API

How to convert PDF to XLSX in jquery for PDF to excel API in JavaScript: Step By Step Tutorial

ByteScout tutorials explain the code material for beginners and advanced programmers who are using JavaScript. PDF.co Web API was made to help with PDF to excel API in JavaScript. PDF.co Web API is the Web API with a set of tools for documents manipulation, data conversion, data extraction, splitting and merging of documents. Includes image recognition, built-in OCR, barcode generation and barcode decoders to decode bar codes from scans, pictures and pdf.

JavaScript code snippet like this for PDF.co Web API works best when you need to quickly implement PDF to excel API in your JavaScript application. Sample code in JavaScript is all you need. Copy-paste it to your the code editor, then add a reference to PDF.co Web API and you are ready to try it! This basic programming language sample code for JavaScript will do the whole work for you in implementing PDF to excel API in your app.

PDF.co Web API - free trial version is on available our website. Also, there are other code samples to help you with your JavaScript application included into trial version.

JavaScript - converter.js

```
$(document).ready(function () {
    $("#resultBlock").hide();
    $("#errorBlock").hide();
    $("#result").attr("href", '').html('');
});

$(document).on("click", "#submit", function () {
    $("#resultBlock").hide();
    $("#errorBlock").hide();
    $("#inlineOutput").text(''); // inline output div
    $("#status").text(''); // status div

    var apiKey = $("#apiKey").val().trim(); //Get your API key at
    https://app.pdf.co/documentation/api

    var formData = $("#form input[type=file]")[0].files[0]; // file to upload
    var toType = $("#convertType").val(); // output type
    var isInline = $("#outputType").val() == "inline"; // if we need output as inline
    content or link to output file

    $("#status").html('Requesting presigned url for upload... ');
```

```

$.ajax({
  url: 'https://api.pdf.co/v1/file/upload/get-presigned-url?
name=test.pdf&contenttype=application/pdf&encrypt=true',
  type: 'GET',
  headers: {'x-api-key': apiKey}, // passing our api key
  success: function (result) {

    if (result['error'] === false) {
      var presignedUrl = result['presignedUrl']; // reading provided
presigned url to put our content into
      var accessUrl = result['url']; // reading output url that will
indicate uploaded file

      $("#status").html('Uploading... ');

      $.ajax({
        url: presignedUrl, // no api key is required to upload file
        type: 'PUT',
        headers: {'content-type': 'application/pdf'}, // setting to pdf
type as we are uploading pdf file
        data: formData,
        processData: false,
        success: function (result) {

          $("#status").html('Processing... ');

          $.ajax({
            url: 'https://api.pdf.co/v1/pdf/convert/to/' + toType + '?
url=' + presignedUrl + '&encrypt=true&inline=' + isInline,
            type: 'POST',
            headers: {'x-api-key': apiKey},
            success: function (result) {

              $("#status").text('done converting. ');

              // console.log(JSON.stringify(result));

              $("#resultBlock").show();

              if (isInline)
              {
                $("#inlineOutput").text(result['body']);
              }
              else {
                $("#result").attr("href",
result['url']).html(result['url']);
              }

            }

          });

        },
        error: function () {
          $("#status").text('error');
        }
      });
    }
  }
});
}

```

```
}  
});  
});
```
