

How to convert PDF to CSV in jquery async API for PDF to CSV API in JavaScript using PDF.co Web API

See how to convert PDF to CSV in jquery async API to have PDF to CSV API in JavaScript

Here you may find thousands pre-made source code pieces for easy implementation in your own programming projects. PDF.co Web API was made to help with PDF to CSV API in JavaScript. PDF.co Web API is the flexible Web API that includes full set of functions from e-signature requests to data extraction, OCR, images recognition, pdf splitting and pdf splitting. Can also generate barcodes and read barcodes from images, scans and pdf.

JavaScript code snippet like this for PDF.co Web API works best when you need to quickly implement PDF to CSV API in your JavaScript application. For implimentation of this functionality, please copy and paste code below into your app using code editor. Then compile and run your app. Tutorials are available along with installed PDF.co Web API if you'd like to dive deeper into the topic and the details of the API.

Our website provides free trial version of PDF.co Web API that includes source code samples to help with your JavaScript project.

JavaScript - converter.js

```
var apiKey, formData, toType, isInline;

$(document).ready(function () {
    $("#resultBlock").hide();
    $("#errorBlock").hide();
    $("#result").attr("href", '').html('');
});

$(document).on("click", "#submit", function () {
    $("#resultBlock").hide();
    $("#errorBlock").hide();
    $("#inlineOutput").text(''); // inline output div
    $("#status").text(''); // status div

    apiKey = $("#apiKey").val().trim(); //Get your API key at
    https://app.pdf.co/documentation/api

    formData = $("#form input[type=file]")[0].files[0]; // file to upload
    toType = $("#convertType").val(); // output type
    isInline = $("#outputType").val() == "inline"; // if we need output as inline
    content or link to output file

    $("#status").html('Requesting presigned url for upload... ');
```

```

$.ajax({
  url: 'https://api.pdf.co/v1/file/upload/get-presigned-url?
name=test.pdf&contenttype=application/pdf&encrypt=true',
  type: 'GET',
  headers: {'x-api-key': apiKey}, // passing our api key
  success: function (result) {

    if (result['error'] === false) {

      var presignedUrl = result['presignedUrl']; // reading provided
presigned url to put our content into
      $("#status").html('Uploading... ');

      $.ajax({
        url: presignedUrl, // no api key is required to upload file
        type: 'PUT',
        headers: {'content-type': 'application/pdf'}, // setting to pdf
type as we are uploading pdf file
        data: formData,
        processData: false,
        success: function (result) {

          $("#status").html('Processing... ');

          $.ajax({
            url: 'https://api.pdf.co/v1/pdf/convert/to/'+toType+'?
url='+ presignedUrl + '&encrypt=true&inline=' + isInline + '&async=True',
            type: 'POST',
            headers: {'x-api-key': apiKey},
            success: function (result) {
              if (result.error) {
                $("#status").text('Error uploading file.');
```

```

            }
            else {
              checkIfJobIsCompleted(result.jobId, result.url);
            }
          }
        });
      },
      error: function () {
        $("#status").text('error');
      }
    });
  }
});

function checkIfJobIsCompleted(jobId, resultFileUrl) {
  $.ajax({
    url: 'https://api.pdf.co/v1/job/check?jobid=' + jobId,
    type: 'GET',
