

How to generate barcode (jquery) for barcode generator API in JavaScript with PDF.co Web API

How to generate barcode (jquery) for barcode generator API in JavaScript: Step By Step Tutorial

The coding tutorials are designed to help you test the features without need to write your own code. PDF.co Web API was made to help with barcode generator API in JavaScript. PDF.co Web API is the Web API with a set of tools for documents manipulation, data conversion, data extraction, splitting and merging of documents. Includes image recognition, built-in OCR, barcode generation and barcode decoders to decode bar codes from scans, pictures and pdf.

You will save a lot of time on writing and testing code as you may just take the code below and use it in your application. This JavaScript sample code should be copied and pasted into your project. After doing this just compile your project and click Run. Writing JavaScript application typically includes multiple stages of the software development so even if the functionality works please test it with your data and the production environment.

ByteScout free trial version is available for FREE download from our website. Programming tutorials along with source code samples are included.

JavaScript - generate_barcode.js

```
$(document).ready(function () {
    $("#resultBlock").hide();
    $("#errorBlock").hide();
});

$(document).on("click", "#submit", function () {
    var apiKey = $("#apiKey").val().trim(); // Get your API key by registering at
    https://app.pdf.co/documentation/api

    var url = "https://api.pdf.co/v1/barcode/generate?name=barcode.png";
    url += "&type=" + $("#barcodeType").val(); // Set barcode type (symbology)
    url += "&value=" + $("#inputValue").val(); // Set barcode value

    $.ajax({
        url: url,
        type: "GET",
        headers: {
            "x-api-key": apiKey
        },
    },
    )
    .done(function(data, textStatus, jqXHR) {
        if (data.error == false) {
```

```
        $("#resultBlock").show();
        $("#image").attr("src", data.url);
    }
    else {
        $("#errorBlock").show();
        $("#error").html(data.message);
    }
}
})
.fail (function(jqXHR, textStatus, errorThrown) {
    $("#errorBlock").show();
    $("#error").html("Request failed. Please check you use the correct API
key.");
});
});
```
